

## OPTIONAL EXTENDED COVERAGE PLANS

(CAN BE PURCHASED IN ADDITION TO YOUR EXISTING STANDARD WARRANTY)

### PLAN 1 - OPTIONAL EXTENDED LIMITED FURNACE HEAT EXCHANGER WARRANTY (OPTIONAL for ALL FURNACE MODELS)

THIS IS AN OPTIONAL EXTENDED LIMITED FURNACE HEAT EXCHANGER WARRANTY that may be purchased IN ADDITION to your existing STANDARD LIMITED WARRANTY which covers your Suburban recreational vehicle furnace. PLEASE REFER to the last page of your owner's manual for details regarding your standard limited warranty. THIS OPTIONAL EXTENDED LIMITED FURNACE HEAT EXCHANGER WARRANTY:

1. Warrants the heat exchanger to be free from defects in material and workmanship through the seventh year after the date of original purchase. (The standard warranty provides 5 year coverage.)
2. Provides a labor allowance to a recommended Suburban service center at rates mutually agreed upon between Suburban and its recommended service centers for in-warranty furnace heat exchanger replacement during this 7 year period. (The standard warranty covers labor only during the first two years.)

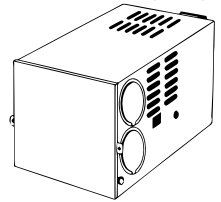

The cost for this **OPTIONAL EXTENDED LIMITED COVERAGE** plan on the furnace heat exchanger is \$30.00.

### PLAN 2 - OPTIONAL TRAVEL MILEAGE COVERAGE FOR SUBURBAN PARK (P) MODELS ONLY

The Limited Warranty provided with your Suburban recreational vehicle furnace specifically excludes any coverage for travel expenses by the servicing agency. The reason in most cases is the recreational vehicle can be taken to the servicing agency for diagnosis and repair. This is NOT PRACTICAL with PARK MODEL units, therefore, you may want to consider the **OPTIONAL TRAVEL MILEAGE COVERAGE** available at a price of \$30.00. *This optional travel mileage coverage is only available on furnaces whose model number begins with the letter "P".* This optional travel mileage coverage will pay up to 250 miles of service travel for a recommended Suburban Service Center representative to travel to your location to provide in-warranty service on your Suburban furnace. The compensation rate is fixed at 25 cents per mile. Service Center charges in excess of 250 miles and/or 25 cents per mile remain your obligation. This optional travel mileage coverage is effective for two years from date of purchase.

PARK MODEL (P-40)

Either (or both) of the extended and optional limited coverage plans must be purchased within 90 days of the date the new furnace or new recreational vehicle is purchased. The Standard Limited Warranty and these extended/optional limited coverage plans will commence on the furnace or recreational vehicle purchase date and apply only to the original purchaser. WARRANTY ADMINISTRATION, EXCLUSIONS AND LIMITATIONS ARE THE SAME AS DESCRIBED IN THE STANDARD LIMITED WARRANTY contained in your Owner's Manual.

**NOTE:** Neither of the above plans are transferable. They apply only to the original owner. No refunds, prorated or otherwise will be provided after warranty has been in effect for 30 days.
